

Announcement No. SCCC-14/2020

Siam City Cement Public Company Limited

Announcement

The Quality, Environment, and Occupational Health and Safety Policy 2020

The SCCC Group is intended to continuously develop our cement manufacturing, quarry operations, and the quality of our products and services. The sustainable responses to all stakeholder's expectations, environmental protection, social engagement, and our occupational health and safety management are also included.

There are three main pillars we adhere as our principles i.e.

Pillar	Principles
1. Quality Management	<ul style="list-style-type: none"> • Our products and services shall be qualified with the relevant standards, accepted and satisfied by the customers. • The quality of our products and services shall be developed appropriately with the change in customer's requirements. The practical innovation shall be also applied.
2. Environmental Management	<ul style="list-style-type: none"> • Environmental controls shall be continuously implemented to mitigate and prevent environmental impacts. The environmental promotion to all employees and relevant stakeholders shall have also proceeded. • The resource utilization shall be performed by applying the principle of environmental conservation, non-renewable resource concerns, and recycling. • The resources maximization shall be promoted.
3. Occupation Health and Safety Management	<ul style="list-style-type: none"> • The safe workplace and environment shall be provided to all workers • The hazard and risk shall be eliminated and/or reduced to prevent injury, sickness, and occupational diseases. • The appropriate management system subjected to the occupational health and safety shall be covered in all activities

Pillar	Principles
	<ul style="list-style-type: none"> • The consultancy and participation for relevant stakeholders shall be provided to ensure the legal and obligation conformances. The necessary resources shall be also supported. • The safety performances shall be reviewed, then, continuously improve the safety management to achieve our safety objective and target.

In this regard, we are intended to provide all the necessary resources and develop our personnel ensuring the objective and target achievements. The evaluation and monitoring of our productions and services are committed to conducting. Stakeholder satisfaction and feedback are also our importance.

We are going to review and update the herewith policy repeatedly

Announced on 25 Mar 2020.
